

Your signature
on debit card
transactions can be more
secure and convenient
than using your PIN.

Signature based
transactions include:

- In-store purchases where you choose “credit” and sign;
- Purchases made online, by phone, or mail order;
- Low dollar amount purchase that don’t require a signature.

How do you use the
signature option?

- Request or select the CREDIT option at checkout.
- Or, if prompted for a PIN, just hit “Cancel” or “Change Payment Type”. Now, you may select the CREDIT option.
